

Our group consisted of 5 people: Julka, Natalia, Oliwia, Adrian and Wojtek. We wanted to create an old album about one of the most popular game in the world: The Sims.

Why we choose this topic? Because we love The Sims. We really like making up fantastic stories and with this game we can do this.

Do you know?

°Bella Goth (the most popular person in The Sims) has got very a interesting story? In The Sims 2 she was abducted by aliens.

°The story of main characters isn't arranged chronologically in the following parts of the game? If it was arranged chronologically it would like that: the first story is in The Sims 3, the next one in The Sims 4, then would be The Sims 1, and the oldest story is in The Sims 2.

We really enjoyed that game. The best of it is that you can make a new character who lives like you want.
